

5 October 1953

Dr. Harry Alpert
Program Analysis Office
National Science Foundation
1520 H Street, N.W.
Washington, D.C.

Dear Dr. Alpert:

Thank you for sending your first quarterly report of government supported research projects in the social sciences.

We have found a number of items in your report that are of interest to us. I believe your reports will facilitate this Agency's coordination of research to the end that greater economies may be effected throughout the Executive Branch of the Government. Although our primary concern is, naturally enough, with classified research projects with which your reports do not deal, we feel your effort complements the classified social science research inventories made by other agencies. In addition, your reports should be of special use to social science researchers throughout the country who will have a great interest in the records of government supported research.

We look forward to receiving your reports regularly.

Sincerely yours,

On file NSF release instructions apply.
